

# Olduvai Gorge Project

## Trip # 3

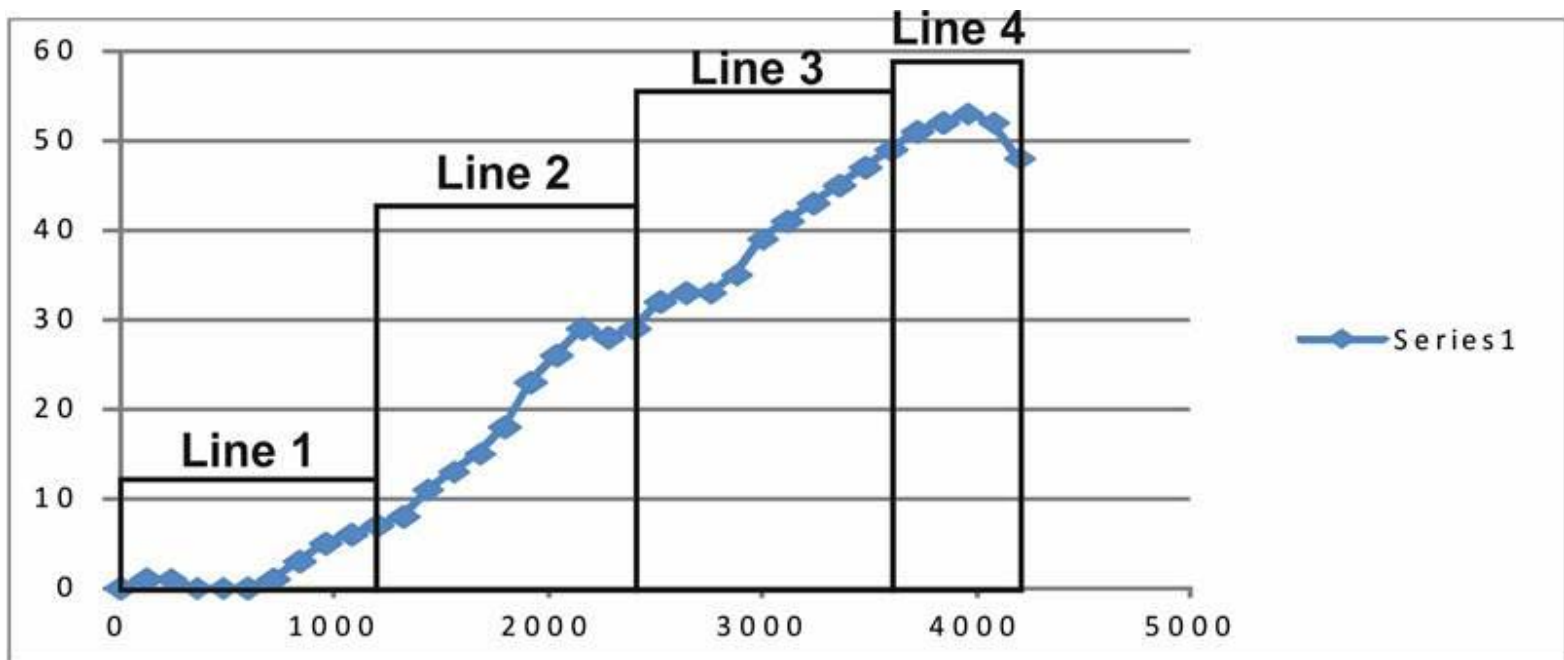

The third trip to collect seismic data started on May 14<sup>th</sup> and ended on June 4<sup>th</sup>. Team members are Kai (May 14 - 27) and Sherif (May 25 to June 4).

We recorded four lines, line 1 to 3 has 240 receivers each, and line 4 is 120 receivers:

**Line 1 starts at the NW corner towards SE, then line 2, line 3, and line 4 ends at the SE corner of the area.**

### Data Download

Download Topography data from [here](#)

### Download seismic data

Data are rearranged, merged, and converted to matlab format.
